ROMEDEVILLE – Dec. 22, 2016 – Track Group, Inc. (OTCQX: TRCK) (“Track Group” or the “Company”), a global leader in location tracking and monitoring services, reported its earnings results for the fiscal year ended September 30, 2016.

“Track Group’s progress on the operational front is further complemented with a solid trajectory of growth to our top line,” said Guy Dubois, Chairman and CEO of Track Group. “Our revenues have consistently improved from \$12.3M in 2014, \$20.8M in 2015 and now I’m pleased to report \$27.2M this past year. Track Group has now operated cash flow positive for a full year and expects further growth as we continue to develop the executive team and sales force.”

#### FINANCIAL RESULTS

- **Revenue increased 31%** - The increase in revenue is attributed to the expansion and growth of offender monitoring in Chile and in Track Group’s North American monitoring operations, especially in Indiana and Virginia, as well as increased adoption of the Company’s analytics service offerings.
- **Gross profit increased 33% to 61% of revenue** - The increase in absolute gross profit and percentage of gross profit is due to higher overall revenue and a continuous drive to reduce manufacturing and monitoring expense.
- **Operating expense reduced by 18%** - The reduction as a percentage of revenue is the result of a substantial revenue increase and continuous cost management that help offset a 68% increase in research and development expense as the Company continues to invest in its product and application platforms.
- **Loss from operations decreased 31%** - Increases in topline revenue and in operating expense contributed to the decrease in loss from operations. Although operating expense increased overall, as a percentage of revenue they decreased.
- **Net loss of \$8.5M** – Track Group’s net loss increased by \$2.8M. This increase is largely due to non-recurring disgorgement of short swing profit received by the Company in 2015; an increase in research and development expense; and an increase in bad debt in 2016.
- **Positive cash from operations** - Net cash provided by operations improved 201% from a loss of \$0.9M in the fiscal year ended September 30, 2015 to \$0.9M in the same period in 2016.
- **Adjusted EBITDA increased to \$2.0M** – Adjusted EBITDA for the fiscal year 2016 increased to \$2.0M, or 7.3% of revenue, from

\$1.2M, or 5.9% of revenue compared to the same period in 2015.
